SUMMARY

React developer with 2+ years building and shipping production web applications. Strong in reusable component architecture, REST API integration, and frontend performance optimization. Comfortable owning features end-to-end in Agile teams and translating Figma designs into responsive, accessible interfaces.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, React Hooks, Redux / Redux Toolkit, React Router, React Query, Tailwind CSS, SCSS, Material-UI, Bootstrap

Testing & Quality: Jest, React Testing Library, ESLint, Prettier

Tooling & Practices: Vite, Webpack, Git / GitHub, Figma, Axios, REST API integration, Lighthouse & React DevTools Profiler, code splitting, responsive design, Agile / Scrum

Deployment: Vercel, Netlify

PROFESSIONAL EXPERIENCE

React Developer — Bepoj Technology, Mohali

Mar 2024 – Present

- Built and maintained client-facing React applications across booking and management domains, owning features from Figma handoff through production release.
- Developed a shared component library of reusable UI components (forms, tables, modals, data grids), reducing new-feature build time by an estimated across the team.
- Reduced initial bundle size through route-based code splitting and lazy loading, improving Lighthouse performance
- Replaced scattered fetch calls with a centralized Axios layer and caching strategy, eliminating duplicate network requests and simplifying error handling across the app.
- Implemented responsive layouts supporting 320px–1920px viewports, ensuring consistent rendering across mobile, tablet, and desktop.
- Collaborated with designers and backend engineers in 2-week Agile sprints; reviewed PRs and enforced ESLint/Prettier standards to keep the codebase consistent.

PROJECTS

School Management System — React, Tailwind CSS, MUI, REST APIs

[Jan – 2026 Present]

- Built a role-based school administration platform with three access levels (Admin, Teacher, Student), using JWT authentication and protected routes with persisted sessions.
- Delivered modules for attendance tracking, class management, and fee records, backed by a normalized state layer and paginated API queries.

Nesiyatova — React, SCSS, REST APIs

[March-2025 March-2026]

- Developed a responsive booking web application with authentication, form validation, and API-driven availability rendering.

Genvite — React, SCSS, REST APIs

[May-2024 Jan-2025]

- Built the responsive frontend and integrated REST APIs; improved perceived load performance through lazy-loaded assets and optimized re-renders.

EDUCATION

Master of Computer Applications — Lovely Professional University

Expected 2026

Bachelor of Computer Applications — Barkatullah University, Bhopal

2023
